**Innotion Commercial Services announces newest TotalCare Package**

*New package provides even greater value to small and growing small businesses throughout the country and the world.*

**Chevy Chase, MD — March 1, 2007** — Innotion Enterprises, Inc today announced the release of its latest TotalCare support package, TotalCare REMOTE. Innotion Commercial Services, recognized by Microsoft as a Gold Certified Partner and Small Business Specialist, is a leader in providing outsourced IT services to the private sector.

“Innotion Commercial Services is extremely pleased with our newest addition to our product line up,” said Bryan Dohmen, Director of IT at Innotion Enterprises, Inc. “Our new TotalCare REMOTE package brings outsourced IT services to companies that never could’ve afforded to have these services on their own. Even more exciting than the new price point is the integration we offer with all of the services. Never before has anyone offered all of the critical services needed to run an IT department to a company at this price, and we are excited to continue to be a market leader.”

The new TotalCare REMOTE plan is available immediately and is being offered to all of our clients in the North American region.
